HOTELS & RESTAURANTS

CORE
beverage program

OCTOBER 1, 2025 - SEPTEMBER 30, 2026

Kimpton Restaurant and Bar Group comprises a unique collection of restaurants and bars in 32 cities that have their own identity and style. No two restaurants are the same, and we offer a flexible Core Beverage Program that is designed to reflect the individuality of our concepts and neighborhoods. Our program sets a base of standard products upon which our talented teams across the country can build to create an inspired program.

OVERVIEW

WELL AND BACK BAR: REQUIRED

The Core Program provides a foundation of products that are both popular and new to explore. Our goal is to navigate guests through an elevated and personalized journey, and for our teams to build a crafted beverage offering that is experiential, handcrafted, relevant, and responsible. We encourage all of our bar teams to build upon this core list in order to enhance and support their concepts at a local level.

The “*” beside some products indicates that this is the only item permitted in this category. For example, for an elderflower liqueur, only offer St-Germain. Other brands are not permitted. This standard maintains quality and reduces the number of SKUs on each bar.

BACK BAR: GROWTH + CRAFT

Brands in this section may not be in every market, and may not fit every concept, but are exciting products to work with. For this section, select 10 brands from the list to add to the back bar.

BACK BAR: RECOMMENDED

Recommended products are optional and sometimes only available in certain states. These include fantastic spirits to consider when building a focused program, such as a whiskey or gin bar. The list on the website may be expanded throughout the year.

FEATURES

Specific spirits are featured throughout the year and incorporated into cocktails on the front or first pages of the cocktail menu. Each property is required to feature the assigned items; it is up to the location to determine how the cocktail is prepared, presented, and served. The featured spirits must be listed on the cocktail menu by brand name and should be the base spirit of the cocktail in a minimum of one outlet.

ABSOLUTE SERVICE STANDARD

All Kimpton properties will follow the Core Program and assigned Features. All spirits must be listed on the menu using the correct name, including accents and other symbols. All Well spirits must be poured when specific brands are not ordered. All items must be printed on menus by the due dates indicated throughout the year.

OVERVIEW

Our restaurants and bars are unique, and the wine program is no different. Our team of passionate wine professionals across the nation curates each wine list, true to their concept.

Each year, wines are tasted and evaluated by a team of beverage aficionados who select the best expressions of terroir in specific pricing categories, mixing beloved and heritage brands with newly discovered wines. There's something for everybody! It's up to each location to taste unique wines available in the local market, appropriate to the concept, on allocation, or just plain fun, to complete the list.

The Core Wine Program represents our favorite examples of terroir and "sense of place" from each partner, and properties should feel free to explore all the wines within each portfolio. Organic, biodynamic, and low-ABV wines are HOT, especially with consumers recently reaching the legal drinking age. Beaujolais is having its renaissance, Bordeaux is back with bold elegance, and Mediterranean wines are setting the tone with their fresh, coastal charm.

Offering wine on tap is an excellent way to handle high volume business and take care of the environment, too. There are many high quality wines available in kegs today. Each keg eliminates 26 empty wine bottles, corks, labels, and cardboard boxes from going to the landfill or being recycled. Our partnership with Free Flow Wines will enable us to expand our kegged wine selection beyond what is available in the market and bring unique wines to our guests.

Throughout 2025-2026, we'll focus on introducing our favorite wines to guests, hosting regular wine training and tasting sessions, and revisiting some of those heritage brands we know and love.

ABSOLUTE SERVICE STANDARD

All Kimpton properties will offer a minimum of 50 percent or 50 wines, whichever is smaller, selected from the Core list. All Kimpton properties will follow the Core Program and assigned Features, printed on menus by the due dates indicated throughout the year.

OVERVIEW

There are many options for low-cost and tasty bubbles today. These include Spanish Cava, Italian Prosecco, French Crémant, California Sparkling, and more! Pricing varies by market and can change with supply and demand. Please work with local distributors to negotiate best price when selecting sparkling wines for volume pours, such as for brunch and Meetings + Events.

ABSOLUTE SERVICE STANDARD

All Restaurants, Bars, and Meetings + Events teams must select from the bubbles list for the house pour, including bar packages, high-volume pours, cocktail mixers (including mimosas), and festive toasts.

SELECTION

Select any of the following sparkling wines for house pours, brunch cocktails, and the Signature, Elevated, and Crafted Bar Packages in Meetings + Events. Some selections also include a rosé sparkling wine and other sizes, such as 187ml for single servings. Wines may be added to this list throughout the year. Pricing is National Average Price.

OVERVIEW

Kimpton places a high degree of emphasis on developing interesting and enticing wine and cocktail menus, but beer is the most popular alcoholic beverage worldwide and the third-most popular drink overall after water and tea – so don't forget about the impact it can have on guests! Every market has a number of local players creating brews specific to their region, adding personality and defining each individual city by its unique set of styles.

We allow maximum flexibility to get geeky with the beer program, and to feature local breweries and craft offerings that best complement the concept. Our core beer selection gives our guests a base of popular options that they can count on. It is up to each property to pick the styles and brewers that make the most sense.

ABSOLUTE SERVICE STANDARD

All properties will offer the beer selections listed in the chart below. All tap handles must be non-branded and fit the design of the bar.

BRAND	PARTNER
Fat Tire, Voodoo Ranger (any SKU) or Bell's (any SKU)	New Belgium Brewing
Dogfish Head, Samuel Adams, Sam Seasonal, or Just the Haze (Non-Alcoholic)	The Boston Beer Company
Modelo (any SKU) or Pacifico	Constellation Brands
Stella Artois	ABInBev
Athletic Brewing Non-Alcoholic (any SKU)	Athletic Brewing Co.

HARD SELTZER

Hard seltzer and ready-to-drink cocktails and beverages have skyrocketed in the past few years, and they are still going strong. Low-calorie seltzers tout a low sugar content and are generally lower in alcohol. Hard seltzer is made like beer, but instead of barley or another grain, brewers use a sugar base, making it gluten-free. Hard seltzer is categorized as a flavored malt beverage, and therefore available through beer distributors, however, it is not a type of beer.

All properties must offer a minimum of one sparkling seltzer beverage in the restaurant, mini bar / bodega offering, or Meetings + Events.

Required (Select One):

Truly Hard Seltzer (Multiple Flavors)
OR
White Claw (Multiple Flavors)

The Boston Beer Company
Mark Anthony Brands

OVERVIEW

Throughout the year, we feature spirits, wines, beers, and other beverages in collaboration with our partners. This strategy drives sales towards specific brands and supports Kimpton initiatives. Features can also be tied to educational opportunities for our teams. Additional features corresponding to holidays, special events, and charitable programs will be announced throughout the year.

ABSOLUTE SERVICE STANDARD

All Kimpton properties will follow the Core Program and assigned Features. All items must be listed on the menu using the correct name, including accents and other symbols. All Features must be printed on menus by the due dates indicated throughout the year. Additional features may be announced throughout the year.

OVERVIEW

Wine makes us feel all warm and fuzzy.

No, that's not the alcohol talking. Kimpton Hotels serve wines you can truly feel good about drinking - not just because they are rich in flavor and character, but because they're made with love of the environment and their makers are known to support charitable causes. We have a program to spotlight these mindful pours. It's called Wines That Care.

Wines That Care are served at our hosted evening wine hours, typically held every day at 5 p.m. in the majority of our hotels' living room lobbies. True to the tradition our founder, Bill Kimpton, began over 25 years ago, wine hour gives guests a well-deserved moment to kick back, get introduced to a great new vino, and enjoy some sparkling conversation.

Throughout the year, we introduce a new featured winery, pouring a selected red and white wine, and sometimes a rosé.

ABSOLUTE SERVICE STANDARD

Where legal, all hotels will participate in the Wines That Care program. Several states may have exceptions to program guidelines due to county/state restrictions. Hotels are encouraged to add regional beer, cocktails or non-alcoholic options **in addition** to the required wines. Social Hour collateral should be displayed only during serving times.

October + November	Unknown Author	The Wine Group
December + January	Silver Gate Wine	The Wine Group

All wines and collateral for printing are listed on the website and updated throughout the year. Pricing and distributors are posted for convenience.

OVERVIEW

Standard, tiered beverage packages allow for consistency and pull-through of restaurant concept, utilizing the products from our Core Program. Our selections include beer, wine, spirits, and non-alcoholic beverages - some familiar, and others new to discover.

ABSOLUTE SERVICE STANDARD

All Kimpton properties will participate in the Meetings + Events Beverage Program, and work with the restaurant and bar team to create a specialty cocktail program.

BEVERAGE PACKAGES

There are three tiers. Each property must offer all three, but may add more.

- The Signature Bar Experience is the standard, entry-level beverage package.

OVERVIEW

Water is the main component of the human body - between 55 and 78 percent! Regular water consumption has numerous health benefits, and it has no calories, fat, carbohydrates, or sugar. It is also non-addictive, hypoallergenic, and caffeine-free.

While we, at home, might (and should) consume tap water and filtered water, bottled water is highly convenient and often a necessity for the complex and rushed lifestyles of our guests. We've teamed up a strategic partner to offer a variety of products that provide refreshment to guests, benefits to our properties, and a commitment to the environment.

ABSOLUTE SERVICE STANDARD

All hotels, restaurants, bars, and event spaces will participate in the bottled water program with our strategic partner, Nestlé Waters. Any additions to the program must be *in addition* to the standard, and not replace the strategic partner, and are subject to approval.

RESTAURANTS, BARS, AND IN-ROOM DINING

OVERVIEW

Non-alcoholic beverages account for approximately 25 percent of billions in beverage sales each year in the United States. During Prohibition, many households and restaurants embraced a new attitude toward hospitality and non-alcoholic beverages. While outlawing the “hard stuff” led to a brief downfall for the burgeoning American cocktail culture, it was a renaissance for temperance beverages.

It’s important that we pay attention to what products we are serving. Fresh juices, high-quality tonic waters, and products with minimal additives are important to the Kimpton guest.

ABSOLUTE SERVICE STANDARD

All Kimpton properties will follow the below standards (and Bar Standards) when ordering or preparing juices, sparkling beverages, and mixers. These are the base items from which to build menus unique to each location. Additional local or regional products may be served at the property’s discretion. The Meetings + Events program is built from the program created for Restaurants + Bars.

The following standards apply to all Kimpton Restaurants + Bars and in Meetings + Events:

Category / Item	Brand - Required	Optional	Comments
Juice	Fresh Squeezed, Simply Orange	“Simply” Grapefruit, Cranberry, and other flavors, Suja	Fresh should be served at all times. Use Simply juices for grab and go. Tropicana (PepsiCo product) may not be served.
Pomegranate	POM Wonderful		For preparing house-made grenadine.
Bottled / Canned Soft Drinks	Coca-Cola Products	None	No competing PepsiCo products may be served.
Performance + Recovery	Powerade, vitaminwater, Vita Coco Coconut Water	Vita Coco Coconut Water Flavors, Harmless Harvest Recommended, or similar (no sugar added)	Gatorade and Sobe (PepsiCo products) may not be served. Coconut water must be pulp-free, minimal added sugar.
Mixers	All Fever-Tree Products, Topo Chico, Fresh Squeezed Juices, and House Prepared Mixes (e.g. Bloody Mary)	Fresh Victor & Twisted Alchemy may be used if fresh juices are not possible.	Refer to the Bar Standards.

OVERVIEW

Mini Bars and Bodegas are an excellent way for hotels to earn additional revenue, market the restaurant, and introduce guests to your city or property muse. With the right selection of products, Mini Bars should enhance the guest experience and provide small elements to surprise and delight.

ABSOLUTE SERVICE STANDARD

OVERVIEW

For many of our guests, a productive start to the day involves a great cup of coffee or tea. Whether it be hot, freshly brewed coffee, nitro on tap, or a fragrant cup of tea, the morning ritual is deeply personal.

A quality coffee and tea program is essential to our guests' daily mantra. We've partnered with La Colombe and In Pursuit of Tea to provide a variety of experiences, from freshly brewed coffee and espresso, canned, ready-to-drink beverages, to personally sourced single-origin teas. Our agreements include wholesale pricing, equipment support, and training.

For in-room coffee on demand, we've curated a program with Nespresso to deliver single-serve solutions.

ABSOLUTE SERVICE STANDARD

All restaurants, bars, lobbies, and events will participate in the Kimpton coffee and tea program. Local roasters and alternative tea purveyors are approved per property.

OVERVIEW

COOKING WINE

Cooking wine is not merely any open bottle of wine behind the bar that you grab when in need. The difference between cooking wine and table wine is the quality and flavor profile of the wine. Table wine is more refined, more flavorful, and will have a stronger effect on your dishes. Cooking wine is a go-to wine that will add the flavor you need, but does not contain the subtle nuances that is in the wine you drink with your meal. Cooking wine provides flavor without sacrificing cost.

As a general guideline, and to choose the best cooking wine, decide what flavors are needed and what flavors are currently in the dish. Break the flavors down into six main styles:

- Dry reds and whites - use with heavy dishes like stews and cream soups or wine-based sauces
- Dry nutty wines - best for gravies and fish such as halibut
- Sweet nutty wines - fantastic with sweet, nutty desserts and ice cream
- Sweet fortified reds - good for rich sweets such as chocolate desserts
- Sweet whites - paired best with sweet fruit tarts or flaky fish
- Rice wine - best in marinades and Asian dishes

ABSOLUTE SERVICE STANDARD

All Kimpton properties will participate in the cooking-wine program. Other branded wines may be used when a desired type is not offered within the portfolio.
