

ONE FOR THE *BUCKET LIST*

Heritage & Story

You may know Bols Genever from the cocktail revolution — that thing we accidentally started in 1820, when we first brought Genever to the U.S. But before cocktails, people were already enjoying malt spirit.

Malt spirit is the heart of Genever — it's what makes Genever, Genever.

With Bols Genever 100% Malt Spirit, we showcase this unique malt wine in its purest form, just as it was savored in the 17th century.

Now bartenders and connoisseurs can taste the origins of this exclusive spirit.

Craft & Production

Based on a recipe handed down from Master Distiller to Master Distiller for over 300 years.

Made from a unique combination of corn, rye, and wheat.

Long fermented, then triple distilled in copper pot stills for depth and purity.

Bottled at 47% ABV — true copper pot still strength and an ode to the original 17th-century spirit.
