
Statement of Ingredients

Product
Origin
Supplier

Bols Genever
The Netherlands
Lucas Bols BV

Ingredients

maltwine
water
grain alcohol
distillate of maltwine and juniper berries
acidifying agent (E330)
distillate of botanicals
distillate of apricot kernels

Manufacturing process

Juniper berries are distilled with maltwine.
Various botanicals are distilled with alcohol and water.

All components are added together and mixed. This mixture is allowed to rest for some time after which it is filtered and bottled.

Colour and appearance

clear

This certificate is valid for 6 months only.
